AG and Board of Directors : the adventure continues !

The local authorities and all the partners of the Montpellier 2028 association met on Tuesday 09 January at the Corum in Montpellier for a meeting of the Board of Directors and an Extraordinary General Meeting.

Over the last few months, Montpellier 2028 has been driving forward a project that has created a common ground. This meeting of the Board of Directors was an opportunity to present a collective assessment of the actions carried out during the bid phase and to look back at all the progress made during this wonderful adventure, which has given rise to so many new initiatives that will remain as many achievements.

At the meeting of the Board of Directors, the members of the association unanimously endorsed the desire to continue along the collective path with joint initiatives in the M28 region around themes that are still essential, such as the ecological transition, Europe and inclusion; specific programming in 2024, particularly around youth and cross-sectorality. These initiatives could take a number of different forms: calls for projects, funding for engineering in targeted locations, funding for themed collective initiatives, and grants for residencies. A meeting of the Board of Directors will be held before the summer to set the association's main objectives, a timetable for implementation and the resources required.

Afterwards, everyone was invited to a convivial moment at the Brasserie du Corum, in the presence of all the association's partners (sponsors and project promoters). Founding members, associate members, guest members and partners all showed their enthusiasm for building the future together.

Michaël Delafosse : « The M28 adventure is continuing and is committed to a common transformative ambition in the face of the major challenges of the territory for today and the years to come. »
